

RedVictor1Racing are also proud to announce their partnership with ST Consulting.

Shane Tecklenburg of ST Consulting states that "I am excited to have the opportunity to assist Andy Frost with his Red Victor Pro Mod project. The opportunity to break into the European market, and be able to do it with a top notch team like Andy's is very encouraging,"

Shane went onto say ""When Andy contacted me looking for the best equipment possible for his new project, I recommended that we use the new Injector Dynamics ID2000 injector, and Motec Engine management."

Typically straight to the point, Tecklenburg adds - "I use Injector Dynamics and Motec products exclusively for my projects because they are the best - Period!"

ST Consulting and FASTMotorsports strive to provide its customers with intelligent solutions for all forms of racing and pleasure craft. They specialize in electronic control systems and engine management solutions. Delivering experience and expertise to complete your project correctly the first time.
