One of the most recognised teams on the European Drag Racing scene, the Red Victor Racing team with the owner and driver Andy Frost hold numerous titles including the fastest and quickest street-legal quarter mile with an ET of just 6.59

sec @ 220mph. The car itself has been featured in many magazine and online articles as well as on UK's Fifth Gear

program. Currently in its third incarnation, Red Victor 3 competes in the MSA/FIA European Pro Mod Championship and

has tentative plans to head over to USA and compete there in 2014.

Red Victor 3 is a 1972 Vauxhall VX4/90 FD VXR Spec. It is powered by a 539ci (8.8L) Chevrolet V8 engine producing in

excess of 3000hp. The Precision twin turbo system will be helped by Turbosmart's Power-Gate 60 external wastegates

and a Race Port atmospheric bov.

"We're really excited about this partnership," said Turbosmart USA General Manager, Marty Staggs, "Red Victor Racing

team are all about aiming high and then going for it. These principles are very much in line with Turbosmart's philosophy."

"We've got some exciting times ahead of us," said Red Victor Racing's Andy Frost, "and we're really happy to have

Turbosmart backing us in our endeavours. We look forward to working with them in 2013 and beyond."
