after countless hours at Nigel's and Pete Knights shop the car is done.Talk about leaving things till the last minute!! The engine sounds real strong and everything has been checked and double checked.The filter has been off 5 times and the sump twice to make sure there is no issues.A huge thanks to Pete and Tim from Knight racing services and Nigel at Altiss for their help and support over the last couple of weeks.I really couldn't have got this far without them.

The car goes on the boat Friday and i've still got a lot of work to do between now and then.At least we can see the light at the end of the tunnel now.....More soon,ANDY.
