Well, we managed to finally get the car sorted, packed and off to be shipped today.

After perhaps the most fraught 5 weeks i've ever had we can say that we're going to represent the UK and Europe at the Extreme Drag race shootout at Miramichi raceway park, New Brunswick, Canada.. I didn't think we'd be saying that!!!

Thanks to Paul Kennedy for this shot

Of course without the help of a lot of people we wouldn't even be contemplating this trip.. People like Nigel at www.alfiss.com, Pete and Tim at www.knightracingservices.co.uk, Rob Inglis at Kustom Konsulting ltd, Chris and Trish Biro and Ray Knight from www.rpm-mag.com, Rich Nicholls from American Car world magazine, Brendan Clancy from Nova engineering, Aviad oil pumps, VP race fuels, Steve Clark from www.nimbusmotorsport.com

Roddy Simpson from <http://www.needforspeedauto.ca/>, James Forrester at Futurenet publishing, www.santapod.com, Paul Marston racing, Eurodragster, Steve Wilson and all the individuals who contributed in any way. Lastly my family Deb, Gary and Damien who have seen me for the first time today in 5 weeks..!

We Made It!

We are still not out of the woods financially yet and are still looking for last minute sponsors to help the situation. For a great package for the rest of this season and next send me a mail on redvictor1@hotmail.com

I only know of 4 people who are coming to watch the race. Maybe there is more? Let me know on the usual mail addy if you are...

If you're not going then the race is going to broadcast live on the net by good friend Jimmy Biggs via www.yourwaynetwork.com If anyone is going of course come and say hello....

I'll be flying out Thursday to meet the truck and car and will be doing my utmost to bring the trophy back to the UK..

Wish me luck..ANDY.
